

Want to save money, go **green**, and improve your quality of life?

THINK GMX INTERNATIONAL

GMX International products:

- reduce your natural gas or propane usage between 10% and 20%
 - lower your energy bills
 - are a one-time purchase
- are easily applied and removed
 - help you go **GREEN**
 - are patented
- are used both commercially and residentially

GMX International

- is a member of the US Green Building Council
- creates satisfied clients all over the world
 - has been in business for 20 years
 - knows that the *client* comes first

GMX units magnetize your natural gas and propane, allowing for the generation of more energy from the same amount of fuel.

Our years of dedication spent developing this cutting-edge, hydrodynamic technology result in **SAVING YOU MONEY.**

"In partnership with the environment."
