TO WHOM SO EVER IT MAY CONCERN

THIS IS TO CERTIFY THAT WE ARE USING GMX MAGNETIC FLUID CONDITIONING SYSTEM GMX-800s ON OUR BOILER FEED WATER LINE SINCE FEBRUARY 2004, WE ARE USING DIRECT GIDC WATER TO FEED BOILER THROUGH GMX.

THERE ARE NO SCALES ON OUR BOILER TUBES AND IN SIDE BOILER SHELL, PREVIOUSLY EVERY TWO TO THREE MONTHS WE HAVE TO CLEAN THE BOILER DUE TO HEAVY SCALING GENERALLY BY SULPHAMIC ACID OR ANY OTHER BOILER DE-SCALLING CHEMICALS WHICH USUALLY DAMAGED OVER CELLS OF BOILER.

AFTER INSTASLLING GMX WE HAVE NOT OPENED THE BOILER FOR CLEANING AND WE HAVE FOUND THAT OUR BOILER EFFICENCY HAS BEEN IMPROVED VERY WELL AND OUR OVERHEADS OF OTHER CHEMICALS AND MAINTANACE HAVE BEEN CUT OFF.

WE ARE VERY MUCH PLEASED WITH GMX MAGNETIC FLUID CONDITIONING SYATEM AND SURE WE WILL RECOMMEND GMX TO OTHERS.

THANKING YOU.
