**Susham Agencies.**  
Ahmedabad.

Kind Attn: Mr. Shamik Vvas.

**Sub: Performance of GMX Fluid Conditioners.**

Dear Sir,

This is to inform you that, GMX System 800 which was installed by you on our boiler feed water line in September-2005. is working satisfactory.

We have noted that existing scales on boiler tubes are being removed and there is no further scale deposition on boiler tubes. The same result has been noted at our relative's concern Cosmo Color Industries boiler where GMX is installed.

We are thankful to you for introducing GMX to us.

Regards,

For, Unity Dye Chem Pvt. Ltd.

Director.
